2026

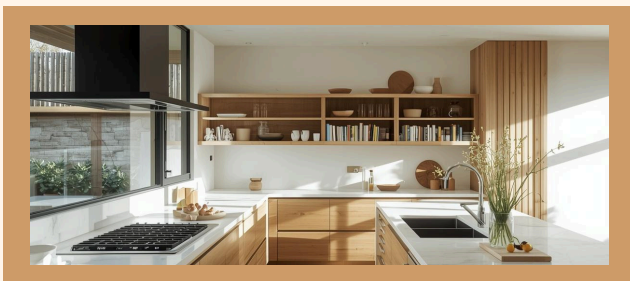

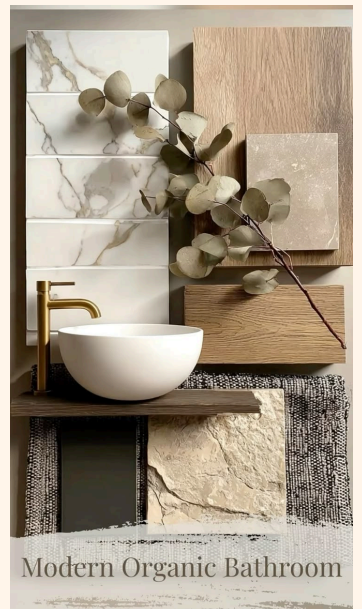

Organic Modern: Elevating Your Colorado Home in 2026

Whether you are overlooking the foothills in Golden or the vibrant streets of Boulder, the "Colorado Home" is undergoing a major transformation.

The days of cold, sterile grays are behind us. In 2026, we are embracing Organic Modernism—a style that focuses on warmth, wellness, and a seamless connection to our stunning Front Range environment.

At Colorado Custom Kitchen & Bath and Confluence Kitchen & Bath, we've curated a world-class selection of brands to help you navigate this shift.

Here is how we are bringing the latest trends to life in Arvada, Golden, Boulder, and beyond.

The Short Answer

Make It simple, organic shapes and simple to experience. Straight forward design and highly functional

The Rise of the "Back Kitchen" & Custom Cabinetry

The modern Colorado kitchen is being split into two: a "Show Kitchen" for entertaining and a high-function Scullery to hide the mess. To achieve this, high-quality cabinetry is the foundation. We offer a range of styles and price points (\$800–\$2500 per box) from industry leaders:

- Cabinetry Lines: Tedd Wood, Executive, Designers Choice, Yorktowne, Belmont, Crystal, J&K, and JSI.
- Hardware: Elevate your millwork with stunning selections from Ashley Norton, Atlas Hardware, Colonial Bronze, Emtek, Rocky Mountain Hardware, Richelieu, Top Knobs, and Water Street Brass.

Surfaces That Stand Up to High-Altitude Light

- Our intense Colorado sunlight can make traditional cool tones look clinical. We recommend warm earth tones—Mushroom, Alabaster, and Muted Sage—to ground your space. Our countertop and tile partners offer the durability and aesthetic needed for our climate:
- Countertops: Choose from Cambria, Silestone, Dekton, or the natural beauty of Arizona Tile and Dorado Nustone.
- We also carry Cosentino, Crossville, Dal Tile, Grothouse, Hanstone, John Boos, MSI, Neolith, and Pental.
- Flooring & Tile: Ground your design with Duchateau, Hallmark, or High Country flooring.
- Our tile lines include American Olean, Emser, Marazzi, Walker Zanger, and many more.

The Wellness Bath: Your Private Spa

In 2026, the bathroom is no longer just a utility; it's a sanctuary. From infrared steam units to freestanding tubs, wellness is at the heart of our bathroom designs.

Wellness & Tech: Experience the pinnacle of relaxation with Thermasol or Mr. Steam units, or Effe sauna/hammam units. Add comfort with Warm-Up or Schluter Systems in-floor heating.

Fixtures & Vanities: We source the finest from Artos, California Faucets, Hansgrohe, Rohl, Crosswater, Franke, MGS, Riobel, Watermark, Waterstone, Dornbracht

Our vanity selection includes Robern, Furniture Guild, and Native Trails.

Masterful Finishing Touches

- Every detail matters, from the water you drink to the light that sets the mood.
- **Kitchen & Bar:** High-performance sinks from Blanco, Franke, and Julien pair perfectly with faucets from Waterstone or MGS.
- We also offer EWS and Franke water purification.
- **Lighting & Mirrors:** Set the tone with lighting from Visual Comfort or Urban Lights, and integrated LED mirrors from Electric Mirror or Baci-Mirrors.

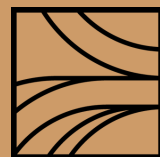

Your Vision, Our Expertise

From custom metal inserts and backsplashes to full-scale remodels, we provide the luxury and custom offerings that define Front Range living.
